CAREER OBJECTIVE

To work for an organization which provides me the opportunity to improve my skills and knowledge to grow along with the organization objective.

PROJECTS

Placement Cell Website

<https://placement.gectcr.ac.in>

A website which contains all the necessary details about the placements in our college. This website provide facility to send notification to the students about the placements , registration of placements , statistics of previous placements and lot more...

FEEDOME - Payment portal for mess bill collection

<http://mess.sreeraj.codes>

The project was developed in order to enhance the easiness of remitting the hostel fee and providing necessary information online so as to improve the transparency of the transactions.

KUTT - Url shortner

A platform to provide customized and random shorthand urls instead of lengthy urls so as to enhance the sharing capability.

Secure Vision

The project aims to provide more security where CCTV cameras are installed by reducing the human effort and improving accuracy. With the help of artificial intelligence and machine learning our model will dynamically identify the faces from each frame of the CCTV footage and matches it with the information in the stored database to identify face.

A News API

Developed a News API by scrapping various news sites and integrated them using php to make it as a API which provides hundreds of news feed with full content of the news as a json object.

KTU tech fest App

<http://bit.ly/techfestapp>

Developed an app for the Ktu tech fest held in 2018 at Government Engineering College, Thrissur which provides all the information about the Events.
